**Accident at Lakeport—Hong Di on Trial—Lost Boy Found—Two Soldiers Drowned.**

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

#### MRS. BILLIOU'S MURDERER.

**Trial of Hong Di Commenced—Trouble About His Counsel.**

[*Copyright*, 1887, *by the California Associated Press.*]

COLUSA, July 6th.—The case of the people against Hong Di, for the murder of Mrs. Billiou, was called in the Superior Court this afternoon. Owing to the failure of the friends of the defendant to comply with the contract made between them and their lawyers, Messrs. Reardon & Freer, of Oroville, the latter informed Heng Di yesterday that they would not act as his attorneys. The defendant this morning engaged the services of Hon. T. J. Hart, who presented to the Court two affidavits asking for a continuance of the case, the first setting forth that the defendant did not have proper time to select an attorney, and the second that the attorney selected did not have time in which to prepare his case. The Court showed that the affidavits were defective, and a continuance was denied. Whereupon the defendant's attorney reserved an exception. There were 100 jurors summoned, and thirty-five excused. The first twelve called responded to their names. Only five were examined, and three passed, when the Court adjourned till 9 o'clock to-morrow. It is thought that a jury cannot be secured in the next two days.

#### PROSPERITY IN YUBA.

**The Assessment Roll of Yuba Shows Marked Gains—Other Matters.**

[*Copyright*, 1887, *by the California Associated Press.*]

MARYSVILLE, July 6th.—The assessment roll of Yuba county this year shows a total valuation of $5,500,000. Marysville shows an increase of $34,000, as compared with the past year, and a total valuation of $1,720,135.

Travel by rail shows a material increase since the change in the Oregon express trains to this side of the Sacramento river. A business trip to San Francisco from Marysville or Chico, which formerly required three days, now needs only one.

The *Appeal* learns from B. M. Lelong, Secretary of the State Board of Horticulture, that careful inquiries made this season have shown a large increase in the number of fruit-growers. In five years the number has risen to 12,000 from 7,000 in 1882, an average of a thousand a year. The relative increase has been very large in Los Angeles and other counties in Southern California, where the boom has been pronounced. The Secretary has endeavored to obtain the address of every fruit-grower in the State, and he thinks the list approximately correct, although it cannot be entirely complete. The list is of orchardists only.

#### THE ENTOMBED MINERS.

**The Curry Drift Located—The Men Probably Buried on the Cage.**

[*Copyright*, 1887, *by the California Associated Press.*]

VIRGINIA (Nev.), July 6th.—Surveyor Wrinkle, who has been doing the underground survey work for the different mines on the Comstock, was telegraphed for and arrived here this morning from Mono county. This afternoon he went to the 1500 level of the Con. Virginia mine and made a survey of the rescue drift. He says the drift has been run right, and in sinking about six feet deeper and then running about five feet south the connection will be made with the Best & Belcher crosscut, where the imprisoned miners are supposed to be. Yet, not a few believe the men are on the cage in the Curry shaft, having fallen after ringing the bell to hoist, and the cage being stuck in the shaft, it was impossible to move it. This connection will probably be made within the next thirty-six hours. There seems but little doubt that the level where the men were working is open to the shaft, in which case they are likely to be found on the cage.

#### RAILROAD NOTES.

**Matters of Interest to Shippers of Eastern Freights.**

[*Copyright*, 1887, *by the California Associated Press.*]

SAN FRANCISCO, July 6th.—[Special.]—The determination of the Southern Pacific to maintain existing rates is coincided in by all the trans-continental roads, and in consequence there will be no reversion to the rates ruling previous to the suspension of the fourth clause of the Interstate Act. The following circular, issued by the Southern Pacific to all agents and connections, effectually settles any uncertainly previously existing on the subject, signed by Richard Gray:

"Through East and West-bound tariffs, and amendments thereto, which are to expire on July 7th, and all through special rates which have expired on this date, will be continued in force until further notice."

The Southern Pacific issued a circular today reducing rates on canned goods to New York from $1 25 to $1; to Chicago, St. Louis and common points, and to common points with the Missouri river, including St. Paul, Minneapolis, Galveston and Houston, from $1 to 75 cents. Glass is reduced from the eighth to the ninth class, making a rate of $1 08 instead of $1 25.

#### SILURIANS KNOCKED OUT.

**What New Blood and Enterprise Will Do for a Town.**

[*Copyright*, 1887, *by the California Associated Press.*]

SAN BUENAVENTURA, July 6th.—The election to-day for the issuance of $20,000 bonds for sewering purposes went through by the fine showing of 19 to 1, in the face of a bitter opposition on the part of some silurians who seem determined to see the town remain at a standstill; but the newcomers here with the voting privilege were equally determined to carry the move, recognizing the fact that on the question of sewerage or no sewers rested the future development and lasting prosperity of San Buenaventura. The $20,000 insures here a sewerage system that in any other town on the coast would cost five times the amount.

#### JUSTIFIABLE SUICIDE.

**Two Wives Living and in Danger of Getting Another.**

[*Copyright*, 1887, *by the California Associated Press.*]

KINGS, July 6th.—Sam Summerfield, alias Lawrenson, aged 30, ended his career last evening by rat poison. Cause, a big drunk. He was to have been married about the 14th inst., although he has two wives now living, one in Salinas with two children and the other in Visalia with three children. He was not divorced from either. The Coroner will arrive this afternoon and hold an inquest.

#### OREGON.

**Return of the Party that Illuminated the Mt. Hood Summit.**

[*Copyright*, 1887, *by the California Associated Press.*]

PORTLAND, July 6th.—The party who illuminated Mount Hood on the night before the Fourth returned at noon to-day. They had a very hard trip, as the snow was sott all the way up, and the higher up they got the softer was the snow. The red fire was placed at an altitude of about 10,500 feet, within about 1,300 feet of the summit. The party saw dimly the fireworks on the river at Portland.

**Ex-Governor Gibbs' Remains.**

[*Copyright*, 1887, *by the California Associated Press.*]

PORTLAND, July 6th.—The remains of ex-Governor A. C. Gibbs, who died in London about a year ago, will be brought here for burial, arriving on Saturday of this week.

**The Americans.**

SAN FRANCISCO, July 6th.—The Central Committee of the American praty organization consists of Oliver Eldridge as Chairman; George W. Grayson, of Alameda, Vice-Chairman; N. P. Cole, of San Francisco, Treasurer, and Marcus D. Boruck, Secretary. The other members of the committee are John A. Eagon, of Amador; A. A. Thayer, of Colusa; T. J. Goodale, of Inyo; H. C. Parke, of Kern; C. N. Wilson, of Los Angeles; A. J. Langdon, of Shasta; S. S. Holl, of Sacramento; L. A. Garnett and L. L. Baker, of San Francisco.

**Two Cases of Drowning at Healdsburg.**

[*Copyright*, 1887, *by the California Associated Press.*]

HEALDSBURG, July 6th.—Chris. A. Kuhn, of Company C, Second Regiment, was drowned in Russian river at 10 A. M. to-day while bathing. Harry Logan and J. Green recovered the body in twenty minutes, but too late. Two other soldiers were taken out of the water insensible, but recovered. The body of D. O. Weber, who was drowned yesterday, was escorted by the First Regiment to the depot this morning.

**Painful Accident at Lakeport.**

[*Copyright*, 1887, *by the California Associated Press.*]

LAKEPORT, July 6th.—While working in the lumber-yard of Hastings & Tunis to-day, two men, named respectively Falkenstein and Hazelwood, were caught by a large pile of lumber falling on them. Falkenstein sustained only slight injuries, but Hazelwood had his spinal column ruptured, a couple of ribs detached from the breast bone, and his hip dislocated. There is no hope of his recovery. He leaves a large family.

**A "Bad Man" at a Ball.**

[*Copyright*, 1887, *by the California Associated Press.*]

MARIPOSA, July 6th.—At Yosemite Valley this morning, while a ball was going on at the Berenda Hotel, a man named Johnson Ridley got on the warpath, and in attempting to draw a pistol the weapon was discharged. Nobody was hurt. Ridley made indiscriminate threats of vengeance. He was disarmed and arrested and brought to Mariposa.

**Weary of Life.**

[*Copyright*, 1887, *by the California Associated Press.*]

SAN FRANCISCO, July 6th.—Mary E. Whitney, aged 40 years, went to the lodging house at 108 Stockton street and took a room on Tuesday night. She asked not to be disturbed. She was found dying to-night. A laudanum bottle was found in the room, and it is supposed she committed suicide.

**Probable Suicide.**

[*Copyright*, 1887, *by the California Associated Press.*]

SAN FRANCISCO, July 6th.—There are no developments concerning the disappearance of Jack Seymour, the sporting man. Mathews, his partner, does not believe Seymour went to Australia on the Alameda, but that he is dead.

**The Boy and the Gun.**

[*Copyright*, 1887, *by the California Associated Press.*]

MERCED, July 6th.—Yesterday afternoon a boy named McSwain, while bathing in Bear creek, was accidentally shot by an other named McFarland, inflicting a slight flesh wound. McFarland was examining a weapon at the time.

**The Boy Found.**

LOS ANGELES, July 6th.—Rody Hogan, the 11 year old boy whose fall from a moving train between Ash Fork and Peach Springs, Arizona, was announced, has been found. A telegram from his father at Peach Springs says the boy is alive and all right. No particulars are yet received.

**It Was Gas, Not the Sun.**

COLUSA, July 6th.—On Monday afternoon as Professor De Melville, the balloonist, was inflating his balloon preparatory to ascension, he became suffocated while inside the balloon and came near dying. Medical assistance has placed him out of danger. The Professor will make the ascension upon his recovery.

**Murder Trial Set.**

[*Copyright*, 1887, *by the California Associated Press.*]

MARIPOSA, July 6th.—Abel Mann, who is charged with the murder of L. G. Whorton, was arraigned before Judge Corcoran to-day. The case was set for trial on July 25th.

**Fire at Livermore.**

[*Copyright*, 1887, *by the California Associated Press.*]

LIVERMORE, July 6th.—A fire this afternoon partially destroyed the dwelling and furniture of Carl Ben. Loss, about $400.

#### VAN HALTREN.

**Interview with the Now Famous Young Ball Pitcher.**

CHICAGO, July 5th.—George Van Haltren, hot, tired and dusty, but with a most excusable look of triumph on his face, walked into the White Stockings Clubhouse at close of to-day's "toying" with the New York "Giants," and seated himself in a chair. The crowning test of his ability as a pitcher had come and been triumphantly met. The New Yorks had come, had seen and been conquered. The club was to leave in the evening for Philadelphia, and a correspondent approached the well-tried young pitcher with a query as to how he liked his new friends and the Chicago nine, and Chicago.

"I'VE BEEN TREATED LIKE A PRINCE,"

He replied, "and feel sorry that we are going away even for three weeks. Talk about Southern hospitality, if it's anything better than what I've experienced here, I want to go South."

"How does playing here compare with that to which you were accustomed on the Pacific coast?" "Oh, players are very much more finished, of course, and in some respects the game is almost a new one to me. There is fielding, for instance; why, if my old partners in San Francisco could see the way the ball comes into the diamond from the field in Chicago, it would make their hair stand on end."

"I suppose you find the work a good deal harder here than you did in the West?"

NOT SO HARD.

"On the contrary, I've been most agreeably surprised in that respect. You see, there I was almost expected to strike three out of every five men who faced me, and when I came here, of course, I expected that against famous sloggers of the National League I should have to get down to just so much harder playing. Shortly after my arrival here, however, Captain Anson told me that I was not expected to do anything of the sort. There are outfielders in the Chicago nine, he said, and it was part of their business to look after balls that were knocked into the field. All I was expected to do was to play good ball, and if batsmen knocked me hard, men on the outside of the diamond were to attend to the rest.'

ENTIRELY SATISFACTORY.

"Your relations with the rest of the players are entirely satisfactory, I suppose?"

"Entirely so. I was a stranger, and they took me in and treated me in such a way that now I feel perfectly at home. They are gentlemen from way back, and I would not ask for better company."

Here Anson broken in with, "The satisfaction is mutual, my boy, and don't let it slip your memory."

"You were rather disheartened at the treatment you received from Doescher, I suppose?"

"Well, that was a bitter dose," said the young Californian, in a meditative way. "When I went on the ground that day my heart was in my throat and stayed there until I had struck out the first Boston batsman to face me, then it went down nearer its natural place, but all through the game I was in a sort of trembling condition. It might not have been so bad if Doescher had given me a fair show, and I tell you about the third inning in that game I knew I was

GETTING THE WORST OF IT,

And knew the umpire was acting on his best judgment. I wished that I had never come east of the Rocky Mountains. That was an awful roast."

"Should say it was," growled big Ed. Williamson, the Chicago shortstop, who was gravely killing flies on the wall, smashing them with his baseball pants. "It is a wonder the colt didn't break down entirely," and the speaker made a vicious lunge at an unusually big bluebottle fly.

"Then your experience in Chicago has been a pleasurable one," said the correspondent.

"It couldn't be better," was the reply. "If the remainder of the season gives me as much pleasure as the portion passed, I'll have

NOTHING TO COMPLAIN OF.

"I am only sorry I am going to lose Daly, who has been catching for me. He is the greatest man behind the bat I ever saw, and I think that he's the only man can hold Baldwin's terrific delivery, and so I am to have Darling. He, of course, is a first-class man, too, but Daly caught first for me, and I am sorry to lose him. Be sure and tell my California friends that I am enjoying myself. Good-by, see you again when we get back."

## HOME AFFAIRS.

### CHICAGO'S BOODLE JURY SAID TO BE "FIXED."

**The Hearst Bribery Charges—Storm on the Hudson—Important Land Rulings—Etc.**

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

#### ALLEGED BRIBERY.

**The Charges Said to Have Been Filed Against Senator Hearst.**

[*Copyright*, 1887, *by the California Associated Press.*]

WASHINGTON, July 6th.—[Special.]—Publication of the news of charges of bribery being made against Senator Hearst has apparently stirred his organ in San Francisco, as its correspondent here was to-day directed to investigate the matter and send a refutation of the facts if possible. Neither the Senator nor his newspaper correspondent will be able to see the affidavits that have been made in the case at present. They will be placed before the Committee on Privileges and Elections of the Senate at the meeting of Congress, unless in the meantime their possessors are "seen" by Hearst or his representatives. It is not believed that the makers of the affidavits can be induced to withdraw their accusations. From a gentleman who read the affidavits it is learned that they are most explicit, giving names, dates and amounts of money paid for votes in the Legislature. Senator Hearst is badly in need of a competent advisor here—one who can check his tongue when he is disposed to become garrulous. His own speeches—in company by no means select—have convicted him in the estimation of his friends of having bought and paid for his seat in the Senate, and if there is an investigation Hearst will suffer greatly at the hands of people before whom he has been foolish enough to express his views as to the morality of legislative bodies.

#### GREEN FRUITS.

**Condition of the Chicago Market for Our Orchard Products.**

[*Copyright*, 1887, *by the California Associated Press.*]

CHICAGO, July 6th.—[Special.]—California green fruits ruled steady for stocks in choice, sound condition, and they had a good demand. Soft stock ruled dull and had no regular value, being sold for what they would bring. There were no more offerings of cherries noticed. That variety of fruit is unusually scarce this year. Either choice, sour or sweet will sell readily at good prices. No more of the California variety of that fruit is to be seen on the market here. There were some very nice peaches received.

No offerings of desirable pears were noticed. Some lots come in bad order and will not bring much of anything. Beurre Gafford, $2 50@$3; Bartletts, $4 50@$5.

Plums are going off slowly. There is quite a large supply on hand, which makes a weakness in prices, as follows: Cherry, in 20 pound boxes, $1 75@$2; Peach, in 20-pound boxes, $3@$3 25, and Royal Layers, $2@$2 75 for half crates.

Apricots, in 20-pound boxes, $1 50@$1 75, and $1 75@$2 for half crates.

Receipts of potatoes are liberal and the market weak, with prices tending lower. The home growth is coming into market, which rules dull. A carload of California potatoes received in bad order were disposed of at 70@80c per bushel after some difficulty.

#### IMPORTANT TO SETTLERS.

**A State of Affairs Not Likely to Occur in Northern California.**

WASHINGTON, July 6th.—Commissioner Sparks has received a letter from Eastern Colorado stating that the drought has already greatly damaged crops in that section, and if it continues much longer the crops will be a complete failure; that insects have destroyed the growing vegetables, and there is absolutely no feed for stock. The writer states that his neighbors are forced to leave their holdings to obtain the necessaries of life, and asks if this absence will operate to defeat their entry claims when final proofs are offered. The Commissioner's answer is important, as indicating the policy of the General Land Office with respect to their cases, of which it is stated there is a large number in different parts of the West. The Commissioner says: "The distressing situation you have mentioned appeals to my strong sympathies in favor of actual settlers on the public domain who are suffering from drought and loss of crops, and whatever relief may be possible within the discretion of this office will be extended to enable them to preserve their claims. Settlers who are obliged to leave their claims on account of drought should be prepared to account for their absence from this cause when they make final proof, but in such cases proof should not be offered until the law has been fully complied with after their return to the land. An enforced absence on account of climatic reasons will not imperil their claims, if the fact is established when proof is made, and if the proof is not attempted to be made in advance of the time when the residence and improvement and cultivation required by law can be satisfactorily shown."

#### BOUNTY LANDS.

**Teamsters in the Mexican War Entitled to 160 Acres of Land.**

[*Copyright*, 1887, *by the California Associated Press.*]

WASHINGTON, July 6th.—[Special.]—Men who served in the war with Mexico and in other capacities than that as soldiers will be interested in a decision rendered today by the Secretary of the Interior in the case of Martin Tubbs, of Missouri, regarding bounty lands. Tubbs enlisted November 28, 1846, as a teamster, and was employed at Jefferson Barracks until May 28, 1849, when he was discharged from the service. He claimed bounty lands under the Act of 1855, but was denied by the Commissioner of Pensions. By the Act above quoted, all persons who have served at least fourteen days in the service of the United States in any of the wars subsequent to 1790, and prior to the passage of the Act, are entitled to 160 acres of bounty land. Among the classes of persons mentioned by the law are teamsters who have been employed under competent authority in time of war in the transportation of military stores and supplies. The Secretary holds that Tubbs does not come in on this provision, because he was not employed at the seat of war. The Secretary lays it down as a general principle that no person who was not serving at the seat of war can come under the provisions of the Bounty Land Act. This will affect quite a number of Mexican survivors who did not reach the seat of war at all.

#### POOR GROVER.

**Cleveland's Growing Unpopularity—His Many Blunders.**

[*Copyright*, 1887, *by the California Associated Press.*]

NEW YORK, July 6th.—The *Tribune* says: Ex-Secretary Manning recently had a confidential talk with Governor Hill over the situation in New York State, at which a deal between Cleveland and Hill was again talked over. Hill was said to be restless and pointed out to Manning the fact that the pension business and rebel flag affair made Cleveland so unpopular with the workers that it was impossible for him to be re-elected. While the Governor will make no fight against the President if he demands a renomination, he is impressed with the idea that the President ought to step out of the way for fear of the defeat of the party and let a stronger man take up the fight.

ANTI-CLEVELAND FEELING.

NEW YORK, July 6th.—A dispatch to the *World* from Ellsworth, Maine, says: The dedication of the soldiers' monument passed off successfully on the 4th. An incident occurred, however, which is causing some comment. Early in the morning a Democratic Cleveland flag was placed across the main street. Some members of the Grand Army protested, and there was much ill-feeling about the matter, and the Grand Army men refused to march under the flag. Several Democrats belonging to the Grand Army, the Democratic Mayor and others had the flag taken in, much to the disgust of those who put it up. The feeling, it is said, was not so much that it was a Democratic flag as because it had attached to it the name of the President, to which the objection was made.

#### EASTERN RACES.

#### BOODLE ON BOODLE.

**A Charge that the Chicago Jury Has Been Well "Fixed."**

CHICAGO, July 6th.—Rumors to-day that the jury in the County Commissioners boodle cases had been "fixed" in the interest of the defendants brought the case to a standstill. The Court was adjourned for several hours to give the State's attorney time to get at the bottom of the matter. The result was a formal charge that four men had been slipped into the box who should never have been admitted. George S. Tate, O. W. Ostrander, William Parks and Daniel Cudahee compose the quartet.

**Eastern Ball Games.**

PHILADELPHIA, July 6th.—Buffington was to have pitched for Philadelphia today, but while at practice his head was badly cut by a bat which slipped out of McGuire's hands, and he was compelled to retire. Ferguson being substituted. The "Phillies" won the game in the second inning, when they scored five unearned runs after two hands were out. Morris was hit quite freely, and was also unsteady. Pitchers—W. Ferguson for Philadelphia, and Morris for Pittsburg. Catchers—Gunning and Carroll. Score—Philadelphia 9, Pittsburg 4.

#### GLADSTONE'S GRIT.

**The Ex-Premier Challenges Hartington to a Comparison of Records.**

LONDON, July 6th.—Gladstone to-day wrote a letter to Hartington in answer to his reply to the ex-Premier's speech of last Saturday. In this letter Gladstone says he deemed it his duty to refer in his speech to the differences which existed between him and Lord Hartington on the Irish question when they were members of the same Government. "Unless these references were inaccurate," says Gladstone, "the Marquis of Hartington is answerable for any inconveniences attending such retrospective references. If they are accurate, I will willingly consent to the publication of anything deemed necessary to show it." In conclusion Gladstone reaffirms the statements he made on Saturday.

In consequence of the feeling in the Conservative party, Matthews has offered to resign the office of Home Secretary.

LEIPSIC, July 6th.—In the treason trial to-day the Procurator demanded nine years at hard labor for Klein, five for Grebert and the acquittal of Erhart. The Procurator declared that it was necessary that the trial should be public, as only publicity would refute the aspersions of the the French press over the Schnaebele incident. The trial, he said, had brought to light the fact that the French frontier police had not only countenanced treason, but incited it. Judgment will be pronounced upon the prisoners on Friday.

His mule, saddled, was found a few hundred yards further on with his throat cut. ## A LABOR PLATFORM.

The Union Labor party, of Ohio, has met in Convention and put forth its declaration of principles, a synopsis of which comes by telegraph. It is to be first noted that on the ticket nominated there is not a name eminent in reform, mechanics, philanthropy or political knowledge. We fail to find the names of nominees who have been heard of outside of Ohio, and the suggestion may be ventured that they have not been much known within the State. The labor interests ought to be able to enlist for candidates men of some distinguished prominence in reform movements, whose past public endeavor would constitute a guarantee for their future.

The platform—the first in the field this year—has in it elements of mixed good and ill. The resolution which demands that the laws against the employment of bribery, force or intimidation to secure the nomination or election to a public office be rigidly enforced, is sound and commendable, and can challenge no issue. The addition that "free drinks or lunches at saloons shall be declared bribery by statute," refers, we presume, to such free dispensation on election days and for political purposes. It has, therefore, the right ring, and is a fit companion to the first sentence quoted.

The demand that banks shall be required to give security in the average amount of their deposits, is not new. The declaration that speculation in the necessaries of life should be made a criminal offense, is impracticable. There is scarcely any possibility of any such penal offenses being defined by law in this day. It was tried in New York, with no success, and the better judgment there is that such matters are best left to the regulative control of commercial laws. Any system as yet devised to correct speculation has proved lame and halting. In an ideal state of society it may be possible to absolutely prevent that complained of, but it will be because society itself will have then reached a level in which the need for a law on the subject will not be felt.

The more important, however, of the resolutions, is that which declares that "discrimination against lawful associations of employes to secure their rights, violates the constitutional rights of the citizens and should be declared felony." Taking it in its broad sense, and construing it as it is evidently intended to be understood, it is a pronunciamento against lockouts, and the retaliatory action of employers in the case of strikes, boycotts, etc. The labor party of Ohio, having declared against the lockout, against the discrimination that refuses men employment because related to labor organizations, inevitably commits the labor organizations represented in the Convention, against the strike and the boycott, which are the causes of retaliatory action by employers. If the one is wrong the other must be; if the one is tolerable so also is the other.

The boycott as used by the trade and labor organizations is a weapon of wrong and injustice; but so long as it is practiced and tolerated the organization of the employer class in resistance must also be recognized. The latter, we repeat, is the legitimate fruit of the former.

Evidently the resolution is a protest against resistance by employers to those who seek to run their business. But we reiterate that the logic of the thing is that if the lockout and the employer boycott are so blameworthy as to be made criminal offenses, so too is the strike and the employes' boycott.

## LONG AND SHORT HAUL DECISIONS.

Judge Deady, of the United States Circuit Court, at Portland, has sensibly decided that the Oregon and California Railroad is authorized to make a less rate for a long haul than a short one, in conjunction with connecting lines or otherwise, whenever, by reason of competition with other lines or means of transportation, the same is necessary to enable the Oregon and California road to maintain or acquire business. That is to say, Congress did not intend in passing the interstate commerce law to say that a railroad legitimately competing with a water route shall surrender the through business to the latter and shut up shop, because there is competition. How such a decision as this, and that recently intimated by the Interstate Commerce Commission, rests upon the souls of the interests that lately clamored for a strict interpretation of the law, to the absolute monopolization of traffic in the hands of water-route carriers, remains to be seen. There can be no question of the correctness of Judge Deady's decision. It is pure reason when he says that the fact that there is competition in the carriage of persons or property to or from a particular place, is a circumstance that justifies a common carrier, under Section 2 of the interstate commerce law, to charge less for a long haul to and from said place than a short one included therein.

It is evident that the Commission and the Courts are coming together in the matter of interpreting the law and that the long and short haul clause is practically dead, in the face of the higher and better laws of commerce.

## SONOMA'S WISDOM.

Sonoma county, one of the richest, most prosperous and contented communities in the Union, inaugurated the scheme of county exhibits at the State Fair. To it belongs the eminent credit of instituting a new method of exhibiting the products and illustrating the resources of the country. It will be remembered that Sonoma's first county exhibit was sent Eastward and shown in several State Fairs, and finally taken to England in most part, all this being done by the Central Pacific Railroad Company. And we venture to say no more effective advertising was ever done for California. The whole State therefore owes Sonoma thanks for her "idea."

It is with pleasure that we learn that Sonoma county has resolved to place her county exhibits for 1887 in the State Fair first. Thereafter she will transfer them to San Francisco. This is commendable action. It ought to be an example to all other counties. They should realize that their duty is first to the State and the District Societies; personal exhibition schemes being made secondary.

SOME young men are under arrest in this city for appropriating a carriage and horses from in front of a public house and driving around the city furiously. It is said, however, in excuse, that but one took the carriage, that he invited the others to ride, and that he was "drunk." Well, suppose that to be true, is it any reason why he should not suffer for his crime? Is drunkenness, despite the law, to be made a shield for viciousness? It would seem so. Scarcely a week passes that some criminal does not plead incapacity for intent because "I was drunk." When wrong is done there ought to be a righting of the injury; when the law is violated there ought to follow punishment both for correction and as a deterrent. But if whisky is forever to interpose its arm to protect criminals what use is there in enacting laws? This plea of "drunkenness" is becoming aggravatingly common; it is time the Courts made it clear to drinkers that whisky-stimulated crime is doubly heinous, and will invariably bring upon offenders the severest penalties. Such a practice might have a tendency to control even the outlaw, whisky.

WHISKY is not credited with much courage-giving quality, but in the case of Wm. Dean, of Yreka, it braced him up to the endurance of pain wonderfully. While firing a salute, and being at the time intoxicated, he managed to shoot off his right hand. It appears that he was so little affected by the loss of the member that he did not miss it until he attempted to use his arm to handle a second cartridge. Discovering the loss of his hand, he persisted and actually did succeed in firing two other salutes, using his left hand. He then walked to a physician's office and underwent the amputation of the shattered stump of his arm, the while smiling and joking with the surgeon. Whether the man was made by the liquor he drank insensible to pain, or more reckless and fool-hardy cannot be known, but it may be surmised that both effects operated to produce his remarkable coolness.

WHAT has Kentucky to say in response to the charge that for over three years the Tolliver gang, recently exterminated, was permitted to rule in Rowan county? How came it that the Executive, the Sheriffs, the State Constabulary and the National Guard were powerless before a mere handful of cutthroats? In California, which some of our New York friends delight to denominate the rowdy West, such a thing as the Martin-Tolliver war would be impossible. The truth is, the vendetta could have been ended by the authorities long ago had the sentiment of the people fortified them. The pistol and the bludgeon have not fallen to the low estimate they must reach in Kentucky, to indicate that the people of the State have risen superior to the bloody code, that claims for every man the right to avenge himself regardless of the law.

IT is pretty certain that the next annual meeting of the Normal Educational Association will be held in California. If California manages wisely this State can be made the assembling place for half or more of the annual convocations of the grand bodies and conventions held in the United States. A session here includes a delightful trip and a visit to a section rich in attractions to the people of the East.

THE San Francisco *Post* says: "There is scarcely a cheap restaurant in San Francisco where a self-respecting working girl can go unescorted, and although there are many thousands of workers of this class we do not know that there is a single institution for their especial benefit." If true, the more shame to the metropolis that it is.

THREE murders in San Francisco within thirty-six hours this week, makes a vigorous beginning for the new business year in San Francisco. San Francisco will need to have another spasm of virtuous activity in trying and convicting murderers, or the bloody business will become commonplace.

### Let It Be Investigated.

It is time that the challenge of the text-book ring should be taken up. The ring makes certain definite and easily investigated assertions. It alleges that books cannot be produced for the price originally estimated by the State authorities, that the State cannot produce them as cheaply as private publishers can, and that in actual practice the State publication has been so shamefully mismanaged that the books have cost not only several times the estimated amount, but much more than ordinary publishers' prices.

Governor Bartlett should investigate these charges at once. The only one on which the result of an investigation would be at all doubtful is that impeaching the management of the State Printing Office. Perhaps there has been extravagance there. If so, there should be exposure and reform. But whatever scandals may or may not be unearthed at Sacramento, the fact will not be altered that books can be produced for the original estimates. Any publisher who asserts that the cost of publication bears any reasonable proportion to the ordinary prices of books is taking advantage of the ignorance of his audience. If Governor Bartlett doubts whether books can be produced at moderate expense, let him ask any practical printer for an estimate of the price at which he would be willing to take the contract for the work. Books are usually sold at six or seven times their originally cost. The difference goes in profits to publishers and middle men. The State can save that difference if it goes about it in the right way.—*S. F. Post.*

## FACTS ABOUT MEXICO.

**Showing a Queer Combination of Antediluvian and Frontier Condition.**

A letter from Carlos Gris, dated at Tehuacan, Mexico, May 31, 1887, and written to the editor of the *Las Novedades*, and which has been translated from the Spanish by S. H. Gerrish, of this city, for the RECORD-UNION, will be found of deep interest about affairs in our sister republic, and reads as follows:

PRICES OF LABOR.

In the States of Puebla and Oaxaca, that contain nearly two millions of inhabitants, very much is offered and little, very little demand, for work. Hundreds of thousands of strong men offer their work at 25 cents or 18 cents for each twelve hours. The women serve for a monthly salary, and receive on an average a dollar and a half a month. It is necessary that people here understand work. That it will not be profitable for the capital invested here in buying work, no doubt will occur to any man of experience, since where land is plenty, climate good, rich mines and all the industry for establishing, it is evident that for capital it is easy to buy work that is offered at such low prices, and invest it in agriculture, the mines and the industries.

PLANTATIONS OF BANANAS.

A man that gains twenty-five cents a day may very well plant a hundred banana plants in a day if he has at hand the plants. For he might put in producing the hundred plants necessary eight days more of a man's work. In this manner the hundred plants of bananas in full bearing are worth $2 25. Now, a banana plant in full bearing is valued at a dollar, we have here a plantation worth a hundred dollars by using only $2 25 of capital.

MANY TROPICAL FRUITS

Might be planted that offer like advantages as the *banana*. The cocoanut, lemon, orange, sapate, mamey, custard apple, guava, pine apple and many other fruits pay a hundred dollars for each one invested in a plantation of these and cultivated. Now all these fruits that are planted in lands near the sea, the price of transportation in carts to the embarcaderos is a low sum.

THE PRODUCTION OF COFFEE.

Every person that is conversant with the cultivation of coffee will admit that this precious grain may be produced easily in the south of Mexico, at 3 or 3½ cents a pound, ready to be shipped. For producing the coffee produced at this price, and even less, alone it is necessary to know well the mode of cultivation and to work the plantations with economy. It will be useless to add, that in this branch alone may be invested in Mexico many millions of dollars, the which is doubled and then tripled in the first ten years.

THE PLANTATIONS OF SUGAR

Produce even better profits than the plantations of coffee. It is without any discussion and all doubt, that the plantations of sugar at this time in lands full of thick forests, and that have the humidity and soil suitable, they produce sugar at a cent, and even less per pound.

The natives of the State of Oaxaca produce brown sugar (*azucar moreno*) at half a cent a pound, using wooden mills and pans made of earthenware for the evaporation of the cane-juice. It is clear that civilized people, with the capital and the knowledge necessary, may produce good white sugar at less than a cent a pound. With reference to a market, in this same republic of Mexico there is a good market for the next ten years, since is sold to-day the sugar in all the great marts of the country at 5 to 15 cents a pound, and probably there will pass five or ten years before there are great plantations of sugar cane to bring the prices down to a general level of three cents a pound, and then it will be time enough to commence sending sugar to foreign countries. Notwithstanding in all this side of Mexico there are great riches in mining, if I had great capital it would not be invested in mines, since I consider that capital invested in agriculture is more, much more, secure, and in time will bring much better gains. Those who love mining have in the States of Oaxaca, Chiapas, Tabasco and Yucatan ample fields where they can invest energy, intelligence and capital, with rich returns.

PRICES OF LANDS.

It is obtained easily and at a nominal price, as the proprietor has generally a great extent of land that he is not interested in retaining, for it produces little or nothing, and he does not know what advance this property will make in the future. The south of Mexico is an immense and fertile territory, where a hundred million of men would find sufficient land to cultivate.

THE INDUSTRIES.

Though we have raw material in great abundance we have not a single paper-mill in all this side. In the same state is every other branch of the industries. Now, as agriculture and mining are so productive, I believe that in this country for some time the industries will make little advance, since the capitalists invest in these branches. Notwithstanding, under the prohibitory duty that we have the industries have ample field to develop, as agriculture and mining augment the consumption of all that may be made here for many years, besides a market for many millions of dollars of foreign manufactured wares.

WAYS OF COMMUNICATION.

They travel on horseback all over the country, horses being abundant and cheap, since a strong horse may be had for only $20 or $25. Merchandise is transported on the mountains by mules and jacks, and in many parts are encountered lines of carts and good roads. From the Rio Bravo del Norte, to our frontier in Guatemala, we have good telegraph routes, that put us in instantaneous communication with all the world. The letters go by mail on horseback like the Overland Pony Express, from New York to San Francisco in the old overland days, with the difference that those gained $14,000 a year each one—ours get $300 a year, and at times much less, since there are mail-carriers that go on foot, carrying the bag on their shoulders, and only get $3 for going 150 miles, and even more. One may have an express-carrier take letters, specimens, samples, etc., a distance of 200 miles for only $2 in silver.

NO INJURIOUS effects can follow the use of Ayer's Ague Cure. It contains an unfailing antidote and specific for mismatic poisons, together with remedial agents which purify and reinvigorate the system.

This line of an old hymn is quite appropriate when applied to "Pleasant Purgative Pellets." "I don't like to take pills if I can avoid it," we often hear persons say, "because they constipate me so." Now, the "Pellets" never do this. They are so gentle and mild that their effect is almost precisely similar to a natural movement of the bowels, and no unpleasant effects are left behind.

PROSPECTIVE COLONIES.—Notice has been received at the headquarters of the Immigration Association that a Swedish colony from Kansas, Minnesota and Dakota will soon arrive in this State. It will number about 100 persons. An agent for the colony has already looked over the field, devoting much of his time to the southern counties, but will visit Upper California before the arrival of his party. A Lutheran minister in Dakota, who has lately returned to that Territory after a visit to this State, writes to the Association that he will arrive here in August with his family, and will be followed as soon as the harvest is over by a party of Germans from the Northwestern Territories. The leader of the colony is much impressed with the advantages offered by Sonoma county, but it is not determined where this party of immigrants will finally settle. An agent of the Association is at present in the upper portion of the State, looking up Government land in the vicinity of Shasta, for intending settlers.—*S. F. Bulletin, July 6th.*

## LOCAL INTELLIGENCE.

**Board of Supervisors.**

WEDNESDAY, July 6th.

The Board met, all the members present.

Reports of S. P. Boyd, Overseer of Road District No. 5, and A. B. Bryant, of District No. 6, were read and filed.

Miss Harriet McCormack presented her resignation as a member of the County Board of Education and the same was accepted. Miss Ida Miller was unanimously elected to fill the vacancy for the unexpired term.

On motion of Mr. Bates, the action taken by the Board Monday in relation to the letting of the contract for repairing the suspension bridge at Folsom was rescinded. It was then resolved that the plans and specifications for repairing the bridge reported by the King Iron Bridge Company be adopted as the basis upon which bids shall be received, and the Clerk was directed to advertise for bids for doing the work according to said plans and specifications, said bids to be opened on Friday, July 22d, at 11 A. M. Each bid is to be accompanied by a certified check for $500.

J. H. Miller, County Recorder, appeared and requested the Board to give him an additional deputy in his office, the increase of business requiring it. The request was granted, and the salary of the new clerk fixed at $100 per month.

John Miller was elected Overseer of Road District 18.

The favorable report of the viewers appointed in the matter of the petition of S. B. Moore and others for a certain private road was read, and the matter set for hearing August 2d, at 2 P. M.

**As Outsiders Saw It.**

The papers and people of the neighboring towns speak in a highly complimentary manner of the Fourth of July demonstration in this city. The Woodland *Mail* says of it: "The celebration of Independence Day in Sacramento was a credit to the Capital of the State and to the patriotic people of that city. Those who attended from Woodland (and there were not less than 200) speak of it in most glowing terms."

The Woodland *Democrat* had the following reference: "The celebration at Sacramento yesterday was one of the grandest in the State. There were thousands of strangers in town, and the pageant was a long and brilliant one. Our Sacramento brothers are alive to their own interests, and backed by the newspapers of that city managed to get up a grand affair. Sacramento, it is safe to say, contained at least one-fifth of the population of Yolo county on the Fourth of July. From here there were no less than a hundred who went on the cars and in buggies, and from points north there were several hundred on the trains. Every train both on Sunday and yesterday was jammed to the doors, and the cry was 'on to Sacramento.' Those who attended spent on an average $10 each, giving the city a profit of some thousands of dollars. But then Woodland has no right to complain. If we had had a celebration we would have taken in that much money, besides having the name of enterprise and thrift."

**Sergeant Barwick's Report.**

According to the Signal Service records, this is one amongst the very few hot spells of the season. Usually a heated term lasts from two to six days, and averages about four days. Yesterday was the tenth day in succession upon which the highest temperature has reached 90° and above, the highest being 99°. The following shows the number of lengthy heated spells that has visited Sacramento: In 1877 there were three of nine days and two of eight days' duration; 1878, there were two heated terms of six days in succession; 1879, there were three heated terms of thirteen days, twelve days and eight days, respectively; 1880, there were three heated spells of only three days each in succession; 1881, there were two heated terms of six days and five days in succession; 1882, there were three heated spells of six days on two occasions, and one of seven days in succession; 1883, there were three heated spells of five days, six days and six days, respectively; 1884, there was one heated heated spell of ten consecutive days; 1885, two of five days each; 1886, three heated spells—one of ten days, one of six and one of five days, respectively. The average temperature yesterday was 78°, which is 6.5° warmer than the normal temperature for that day. The highest and lowest temperature was 93° and 64°, with gentle, fresh and brisk southerly winds and clear weather.

**Police Court.**

In the Police Court yesterday Wm. Nadermann's cases of arson and attempting to burn insured property were continued until the 15th, in order that a shorthand reporter might be present to take the testimony......F. S. Hall and F. Smith, arrested on a charge of grand larceny, in t king money from the pockets of a man at the City Hotel Saloon, were allowed to plead guilty of petit larceny, and were fined $150 or 150 days each......James Morrissey was convicted of cruelty to animals in abusing a horse hired at W. J. Irvine's stables on the Fourth, and will receive judgment on the 11th......David Barnes' case of disturbing the peace was dismissed......George Clark, arrested for having been drunk, was too sick to appear, and his hearing went over until this morning.....Indian Mary, taken in for drunkenness, was discharged......P. Brannigan, James Fleming, Michael Gorman and Wally Nolan, the young men who took a ride in a vehicle belonging to other parties, and had a runaway which resulted in the rockaway being make to look as if it had been put through a thrashing machine, were discharged at the request of the prosecuting witness, it appearing that they had not intended to steal the property and the damages having been paid.

RAILROAD INCORPORATION.—The articles of incorporation of the Woodland, Capay and Clear Lake Railroad Company have been filed. The articles provide for the construction of a standard gauge road to commence at Woodland in Yolo county, running thence in a northwesterly direction to Lakeport. The estimated length of the road is 100 miles. The capital stock is $4,000,000, divided into 40,000 shares at $100 each. Of these C. F. Crocker has subscribed for 320, Timothy Hopkins 320, W. V. Huntington 320, S. T. Gage 20 and N. T. Smith 20. The gentlemen named as shareholders are also to act as Directors. The construction of this road is to be commenced as soon as possible after the arrival of some steel rail, a commodity of which the Southern Pacific has at present a very small supply.

## IMPROVEMENT SUGGESTION.

**Something of Criticism and a Demand for Clear Water for the City's Use.**

EDS. RECORD-UNION: Having been a resident of Sacramento a few weeks, I have observed the spirit of enterprise on the part of your citizens, having in view the increase of boom and of the population and wealth of the community. In the demand for the improvement of the city, much stress is laid upon the unsightly appearance of the style of architecture of the business houses, with their great awnings and porticos over the sidewalks; also upon the muddy streets in winter. I dare say there is a great deal of mud here, as in other cities, in the unpaved portions, but I think it not impossible to enjoy a moderate degree of prosperity without grading M or any other street that has inhabitants who are either too destitute or too improvident to improve it.

As to the porches over the sidewalks being a reproach to the city, permit me to enter a modest protest. After the enjoyment of a few weeks of Sacramento sunshine, I am fairly reconciled to this defect in the appearance of the business streets, and have no doubt that when the rains of winter come I shall still more respect the wisdom of those who first found these great awnings necessary.

As a stranger, I have not been so much impressed with the absence of those things that please the eye as I have been with the absence of one of the three great essentials of human life. Sacramento possesses in its elegant homes, handsome gardens and lawns, beautiful trees and flowers, fine school buildings and churches, neatly tended plazas, and spacious theaters, all that is needed to charm the eye and amuse the stranger. It appears to have the business methods of a metropolis combined with the ease and retired privacy of country homes.

With such advantages one would think that it would be safe to predict a great and prosperous future for a city so admirably situated for commerce and so lavishly decorated with floral beauty. But, alas! one of the greatest of human necessities is totally wanting. I can get wine, whisky and beer, but cannot get water fit to drink in Sacramento. The people tell me the water is good; but I do not like it, and "my gorge rises at it." If either of the three great factors that go to make up the sum of human needs—pure water, good air and sufficient food—is wanting, there cannot be anything but a fitful and spasmodic prosperity where such want exists. With bad air and bad water, there must necessarily be lowered vitality, lessened physical and mental energies, moral degradation and progressive race deterioration.

Where such an imperative necessity exists it is hard to understand why an emphatic demand is not made by the community for better water. Where so serious a hindrance to good health and to natural prosperity and to the development of various industries exists, it is amazing that such a monstrous imposition should continue. It is difficult for a stranger to understand why an intelligent community will endure the use of such a muddy, and at times, bad-smelling liquid as is supplied through the city mains. If your people like it, then it is a sad reflection on their taste. If they simply endure it, then it is reasonable to conclude that the water has got in its baleful work upon them until they have no longer enough energy to ask for nor desire anything better.

It seems to me that the city authorities ought to take the matter in hand and advertise for plans and methods for furnishing clear pure water, for it is safe to predict that in these times of booms and progress elsewhere a plan can be found that will supply the city without the purchase of a franchise and at no greater expense than the necessary outlay to put it into operation. All of the other needed improvements would follow as the sun follows the night. But an increase of population worth having is not possible while no better inducement than the liquid called water in Sacramento is offered the new comer. The impecunious may locate among you until he gets money enough to get away, but people of wealth and means will not bring their families here to test the drainage of the northern tule basins in their own stomachs.

It is to underrate the good taste and intelligence of strangers to expect them to come and fall at once into the local habit of endurance and mendacity in support of the fiction that the river water is good, when any one with an understanding ranging from the average sense of a driveling idiot to the towering intellect of a Daniel Webster must pronounce it atrociously vile.

Cannot the procurement of a supply of good, clear water be one of the results of the efforts of the City Improvement Association or of some other organization or influence, for it seems to me that all other efforts to make your city attractive to home-seekers and capitalists fall into insignificance when compared with this one thing, and which at once stands boldly in the face and against the stomach of every new arrival and visitor. Respectfully yours, J. B. R.

SET FOR TO-MORROW.—The cases of C. Koening and F. Ackerman, accused of an assault to murder Paxon McDowell at the California Hotel last Sunday morning, were yesterday transferred from the Police Court to the Court of Justice Post, in order that they might have a speedy hearing. It will be necessary to take McDowell's deposition at the county hospital, which the Police Judge would not have authority to do, that institution being outside of the limits. Judge Post has set the cases for examination at 10 A. M. to-morrow, and fixed the bail of the defendants at $5,000 each. Prior to that time he will go out and take McDowell's testimony. The injured man is said to be doing as well as could be expected, and there are hopes that the use of the knee joint will be saved, but it is quite doubtful.

THE SUSPENSION BRIDGE.—The Board of Supervisors on Tuesday awarded the contract for making the repairs to the suspension bridge at Folsom to the King Iron Bridge Company. Objection was so strenuously made to their doing so, on the ground that the company did not propose to do the work on the same basis that other contractors had bid upon, that yesterday Tuesday's action was rescinded, and the Clerk of the Board directed to advertise for proposals for doing the work on the basis that the King Company was making its figures upon.

DEPUTY IN THE RECORDER'S OFFICE.—The "boom" in real estate in this city and county has brought such a great amount of business to the County Recorder's office that the regular force has been unable to manage it. Consequently Recorder Miller presented the matter to the Board of Supervisors yesterday, and asked that he be allowed another deputy. The request was complied with. It is understood that R. T. Cohn, a worthy and very competent young gentleman, well known in the city, will be appointed to fill the position.

WOODLAND'S ASSESSMENT ROLL.—Town Marshal Hoyt, of Woodland, has just completed the town assessment roll. It shows a total assessment of something less than $2,000,000, or a little less than that of last year. While the property taxation has greatly increased, there has been a great falling off in the amount of money on hand. The *Mail* says that Mr. Hoyt accounts for this on the ground that last year there were no greenbacks in the market, while this year they are plenty.

WORK COMMENCED.—Turton & Knox, of this city, contractors, commenced work on the grade of the Madison and Lake Railroad Tuesday. There are at present employed about forty men and 300 head of horses. This force will be increased in a few days. The first camp will be located near Stephens' ranch, and work has been begun at Madison. It is thought it will be pushed vigorously.

CHAS. ROBIN, the clothier, is now located in his new quarters, 612 and 614 K street. Mr. Robin has now one of the most complete and best appointed clothing establishments in Sacramento. The public will find it to their interest at all times to give him a call if they want an honest deal. *

SCHEUNERT BROS. & CO., tobacco and cigar dealers, who were until recently located in the Capital Hotel block, have now taken up permanent quarters at 720 K street. Their motto is to keep the best. *

A BARGAIN FOR CASH!—Fine upright piano, 7⅓ octaves, only slightly used. L. K. Hammer's Music Store, No. 820 J street. *

John Shannon's house, at Folsom, was destroyed by fire on the night of the Fourth during the absence of the family, and nearly all its contents were likewise burned. Loss about $1,800, and no insurance. The fire is supposed to have been caused by remains of fireworks falling upon the building.

A. Espie's barn, near Routier's, was destroyed by fire, together with its contents, Tuesday night, about 9 o'clock, the fire having been started, it is supposed, by tramps. The house caught fire two or three times, but the neighbors succeeded in saving it. The loss is in great part covered by insurance.

C. A. Bassett, who was recently convicted in the Police Court of battery upon Della McRae, a woman with whom he had been living, and sentenced to pay a fine of $60, or be locked up sixty days in the county jail, was yesterday released from the latter institution, an uncle having come to the city and paid the portion of his fine that he had not served out—$48.

The second trial of T. C. Casey for burglary was commenced in Department Two of the Superior Court yesterday, Judge Leon D. Freer, of Oroville, presiding. When Court adjourned in the evening but four jurors had been accepted. It is evident that a special venire for more jurors will have to be issued at to-day's session, and that a jury will not be secured to-day.

Joseph Hahn, Dr. M. Gardner, County Assessor A. L. Frost, Deputy Assessor E. J. Clark and J. C. Van Kirk, of this city, and several parties in San Francisco, have purchased about fifteen sections of State school land in San Diego county, which lies in close proximity to the railroad. An artesian well has been sunk on the desert land which gives a good flow of water.

There was a good attendance yesterday of employes at the railroad works and other friends upon the funeral of John Hetherington, who committed suicide in this city Tuesday morning while laboring under an attack of despondency. All who were acquainted with him speak of him as an intelligent, genial and kind-hearted gentleman, and express great regret at his demise.

IT HAS NOT SUSPENDED.—A press dispatch from Marysville, a few days since, stated that the *Democrat* of that city had suspended publication. We have no knowledge of the manner in which this statement came to be made, but it is effectively demonstrated to be a very large mistake, as the *Democrat* not only continues to appear regularly each evening, but has been recently incorporated, and is greatly improved by additional backing and changes made.

NEW METROPOLITAN THEATER.—The production of "A Celebrated Case" was postponed last night to this evening, to give the newly-arrived members of the Wessells Dramatic Company time to rehearse in the melodrama thoroughly. **Sale of Yolo and Colusa County Lands.**

The people of Yolo county justly regard the great auction sale of lands in Yolo and Colusa counties, which is to take place next Saturday at 1 P. M., in the town of Woodland, on account of the San Francisco Savings Union, as one of the most important events in the history of their county, as without doubt it will be the foundation of a boom of large and substantial proportions. The lands offered for sale aggregate 25,000 acres, located near Blacks, Harrington, Arbuckle and Dunnigan stations, and the magnificent crops now being gathered from them show plainly, though it has not been a favorable year, that the soil is excellent and all that is claimed for it. It will be offered in lots of 160 acres and upwards, to suit the buyers, and from the large quantity the purchaser can secure that most suitable to the crop he desires, whether for grain and fruit-growing, vineyard or stock-raising purposes. A great many parties—hundreds, it is said—have already inspected the land, and the indications are that there will be a very large attendance of men anxious to buy at the sale. The good people of Woodland have made arrangements to give them a hearty reception. Those who desire to be present can obtain special excursion rates from Sacramento, Knight's Landing, Black's, Dunnigan, Harrington, Arbuckle, Williams, Maxwell, Willows and adjacent stations. The land will be sold to the highest bidder, without reserve or limitation, and disposed of to the last acre if bidders show a desire to purchase. The terms are one-third cash, balance in one, two or three years, at 7 per cent. interest; taxes of 1887-8 and mortgage tax to be paid by the seller. This sale is under the auspices of the Pacific Coast Land Bureau, and Easton & Eldridge, of San Francisco, will be the auctioneers.

**Museum Association.**

The California Museum Association met at the E. B. Crocker Art Gallery last evening, Judge J. W. Armstrong presiding. The Association agreed to take a recess for two months, so far as its regular meetings are concerned, but special ones may be held. Nine Directors were appointed to act, three for July, August and September each, as Executive Committees, to have oversight of the Art Gallery during the vacation of the School of Design, which begins on the 16th inst. The Association has received a flattering proposition from the distinguished mineralogist, Henry G. Hanks, to dispose to it of his valuable collection of fossils, minerals and examples of the geological formations of the coast. The Association Directory has referred the matter to a committee to consider it. The difficulty in the way of negotiation is financial inability, though the collection is offered at a low figure. If some generous citizen of means should see fit to make the collection his own, and transfer it to the city's Art Gallery, it would add greatly to the attractiveness of the State's collection now being put in place in the gallery, and give the Museum Association great encouragement.

Ralph Sharp, the young man employed on a thrashing machine in Yolo county who partook too plentifully of ice water one day last week while overheated, and was attacked with lockjaw, was taken to San Francisco for treatment, but it is not thought that he will recover.

Satin and Gros-grain Ribbon, Picot Edge, No. 9 width; Colors, Pink, Cream, Cardinal and Light Blue. Price, 7 1-2 cents a yard. Small Ware Depart.

## A WORD IN GENERAL.

There are many frauds, both great and small, open and obscure, in shoemaking. It takes an expert to steer clear of them, and not one shoe customer in twenty can be called an expert. Some of the grosser deceits, such as pressed paper instead of leather for inner soles, etc., are avoided by some dealers. Comparatively few, however, manage to keep clear of all. The truth is, competition between shoe manufacturers is now so great that there is strong temptation to slight work in order to compete in prices. Few try to win by aiming to excel in the *quality* of their work.

As to ourselves, we don't lay claim to superior judgment, or that we are unerring in the selection of goods. *We do, however, guarantee two things, and these two things are just what make this a thoroughly safe and reliable place to buy in.*

1. That we keep posted continually in the doings of the best makers in the country, and in every grade and quality, and carry that shoe which, in our judgment, presents the greatest merit, changing it for better work as often as we know of better work being produced. For this reason we are now offering *better* values than ever before, and poorer values than we shall probably be offering in the future.

2. All goods exactly as represented, and to the best of our knowledge no shoddy or slighted work allowed. We have more than once condemned, at a heavy loss, whole lines of goods, because of slight imperfections. We *can* afford money loss. We *cannot* afford the loss of either reputation or customers.

## SILKS.

We are offering splendid values in Black Grosgrain Silks, Black Surahs, Black Satin Merveilleux, and Black Satin Stripes and Brocades.

Special lines of Black Silks, from looms of

**Ante, Guinet & Co., Lyons.**

These goods we can confidently recommend, and guarantee them against the common failings of Black Silks.

**FULL LINES OF HAMMOCKS, $1 to $4.**

### Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof, that *Green's August Flower* will make them free from disease as when born. Dyspepsia and Liver Complaint are the direct causes of seventy-five per cent. of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart and other distressing symptoms. Three doses of *August Flower* will prove its wonderful effect. Sample bottles, 10 cents. Try it.

A LUCKY FIND.—A party of hunters who were out a few days ago discovered within a few miles of this city a spring, which promises to be a bonanza to the finders, as it is on a piece of unclaimed land. The water is clear and of a bluish tint, effervescent, and in taste is similar to that of the famous Azule water. A sample has been sent below for chemical analysis, and if it bears out the expectations of the parties who discovered the spring the land will be at once taken up, a hotel built on the place, and a watering place founded. The water pours out from a cleft between two rocks in a stream estimated at forty gallons a minute. The ground upon which it was found has been hunted over for years and no spring seen, and it is thought that the recent earthquake shocks have been the cause of the sudden flow. For obvious reasons the names of the discoverers and the exact locality is not mentioned.—*Chico Chronicle.*

TEMPERANCE BEVERAGES.—Do not go to the country without a bottle of Angostura Bitters to flavor your drinking water, soda and lemonade, and keep free from malaria and all disorders of the digestive organs. ### SAN FRANCISCO MARKET.

SAN FRANCISCO, July 6th.

FLOUR—Prices are firm, owing to the high rates for Wheat. Net cash prices for California: Best Family, $5 35@5 55 ⅌ bbl; Bakers' extra, $4 70@5 25; Superfine, $3 10@3 60.

WHEAT—Accurate figures for small lots in the sample market are not easily given. There is no trading to amount to anything through this channel. All business being transacted at the moment is negotiated through the Call Board, and it is only by picking up odd parcels and massing them into lots of one hundred tons for contract purposes, that the situation is kept at all in motion. The Produce Exchange adjourned last Friday for the holidays and will not resume operations until to-morrow, so that quotations are more or less of approximate character. Perhaps $1 82½ ⅌ ctl will about represent the figure at which small offerings of No. 1 shipping would be taken by exporters. In the Call Board it could be disposed of in quantities of not less than one hundred tons at $1 89@1 90 ⅌ ctl. Under present circumstances, millers are obliged to pay $1 90 for stock to meet their better classes of custom.

BARLEY—Now that the holidays are over, it is expected that renewed activity will prevail in this product. Receipts must necessarily increase as the season advances, and this will afford opportunity for more extensive trading. For feed descriptions, the range in prices is $1 05@1 07½, though for choice product the holding figure is $1 08¾ ⅌ ctl. More attention is expected to be given to brewing parcels in the near future. In fact, a better demand is already noted for an article that is of attractive character. Prices show a wide variation, as usual. Medium qualities will hardly bring over $1 17½, and some sellers would gladly accept $1 15 ⅌ ctl. For a really good article, $1 20@1 22½ would about represent the market value, while for something extra fine a customer could likely be found at $1 25 ⅌ ctl. In Chevalier there is little, if any, local trading. Buyers are reported to be picking up lots in the country at a figure equivalent to $1 62½ ⅌ ctl here. Nearly all purchases in this line are on English account.

OATS—The market has been quite tame of late. Stocks on hand move off very slowly, and it is only by moderate concessions in prices that any business at all is transacted. There seems to be an increasing desire to realize and this fact does not strengthen the situation. We quote as follows: Choice Feed, $1 60@1 65; No. 1 Feed, $1 55@1 60; No. 2, $1 50@1 55; Milling, $1 60@1 65; Surprise, $1 75@1 80.

CORN—Sellers are at a disadvantage. Most dealers are well supplied for the present, and until there is more general buying the market will continue to exhibit a weak tone. We quote: California, large Yellow, $1 12½@1 1; small Yellow, 1 12½@1 15; White, $1 20@1 22½ ⅌ ctl.

HAY—We quote: Choice old Wheat, $13@13 50; No. 1, $11 50@12; fair, $10@11; choice Wheat and Oat, $11 50@12 50; Good, $10 50@11 50; Wild Oat, $10@12; Tame Oat, $10@11; Clover, $9@11; Compressed Oat, $10@12; Compressed Wheat, $12@14 50. We quote new: Choice Wheat, $14@15; Wheat and Oat, $12@14; Oat, with sprinkle of Wheat, $11 50@12; Wild Oat, $11@12; second cutting Alfalfa, $10 50@11 ⅌ ton.

HOPS—Business continues dull. Large buyers are not disposed to pay over 15c for crop of 1886, and from this figure down to 12c ⅌ ℔ must be accepted as the current range.

VEGETABLES—Green Corn is less plentiful and commands better prices. String Beans sell at a wide range, owing to the difference in the quality of offerings. Green Peppers keep low. Tomatoes are in fair request, top figures being readily obtained for a choice article. Cucumbers are cheaper, under liberal receipts. We quote: Egg Plant, 8@12c ⅌ ℔; Cucumbers, 50c@$1 25 ⅌ box; Green Peppers, 50@75c ⅌ box; Green Peas 1½@2c ⅌ ℔; Tomatoes, 60c@$1 ⅌ box for Vacaville, and $1@1 50 ⅌ box for river; Green Corn, 8@15c ⅌ dozen for common, and 18@25c ⅌ dozen for sweet; Green Okra, 8@10c ⅌ ℔; String Beans 2@4c ⅌ ℔; Summer Squash, 60@75c ⅌ box for bay; Artichokes, 10@15c ⅌ dozen; Carrots, 35@50c ⅌ ctl; Turnips, 25@50c ⅌ ctl; Beets, 75c@$1 ⅌ sack; Parsnips, 50@$1 ⅌ ctl; Cauliflower, 50@65c ⅌ dozen; Cabbage, 50@75c ⅌ ctl; Garlic, 1½@2½c ⅌ ℔; Celery, 50@60c ⅌ dozen; Dry Peppers, 8@10c; Dry Okra, 15@20c ⅌ ℔.

FRUIT—Trade was somewhat irregular to-day, owing to the late holidays. Grapes are too green to be in favor. Cherries are quite scarce, but there is no special demand. Figs are a drug at the moment. Berries move off well. Small Cantaloupes make fair representation, though sales are slow. Apples are abundant, mostly of inferior quality. Pears are in like condition. Apricots still come forward freely. We quote: Grapes, 25c@$1 25 ⅌ box; Peaches, 40@75c ⅌ box and 60@85c ⅌ bskt; do. Crawford Yellow, $1 25@1 75 ⅌ box; Apples, 35c@$1 25 ⅌ box, and 15c@$1 ⅌ bskt; Pears, 40c@$1 ⅌ box, and 15@75c ⅌ bskt; Figs, 25@50c ⅌ box; Cherries, 60@75c ⅌ box for white, with Royal Ann at 80c@$1 ⅌ box, and 40@50c for black; Strawberries, $5@$10 ⅌ chest; Blackberries, $6@8 ⅌ chest; Raspberries, $5@8 ⅌ chest; Currants, $2 50@4 ⅌ chest; Plums, 3@6c ⅌ ℔; Cherry Plums, 75c@$1 ⅌ box, and 35@50c ⅌ drawer. Apricots, 40@60c ⅌ box; Mexican Limes, $10@11 ⅌ box; Lemons, Sicily, $6@7; do California, $2@2 50 for common, $3@4 50 ⅌ box for choice; Oranges, California, $2@4 ⅌ box; Tahiti Oranges, $2 50 ⅌ box; Bananas, $2 50@3 50 ⅌ bunch; Pineapples, $4@6 ⅌ dozen; Cantaloupes, $2@3 50 ⅌ dozen.

DRIED FRUIT—The *Grocer and Country Merchant* says: "Samples of new dried Apricots begin to come in, and, for the most part, are of excellent quality. Drying will be carried on more largely this season than ever before, and already large sales have been made to Chicago and Western points for future delivery. Dried Apricots have heretofore been in great request for shipment, and it is thought the demand can not be oversupplied. It is too early to quote prices, but sales have been made at 13½@14½c, delivered, according to quality. This is for sun-dried fruit, bleached. Parties engaged in drying are paying about 1½c per pound for fruit in the orchard. While the fruit, particularly the Royal variety, is not as large as last season, the quality of the dried product, if properly handled, is not the less attractive. It is thought the Moorpark variety will be average size. As the season advances the prospect for a fair crop of French Prunes improves. The fruit is less abundant than last year, but it is likely to be exceptionally large and fine, and in weight the crop may not fall much, if any, behind that of last year. This fruit is also in good request for shipment. The quantity of peaches dried this season will be large, but work has not commenced on this fruit." We quote: Sun-dried apples, 6@7c ⅌ ℔ for sliced and 4@5c for quartered; Alden and Plummer, 12½c; Apricots, 11@12c; Blackberries, 10c; Figs, 5@6c for pressed and 4c for unpressed; Smyrna do, 12½@14c for layers, and 9@10c for kegs; Nectarines, 10c; Peaches, 17@18c for peeled, and 9@10c for unpeeled; Pears, 3@4c for whole and 7@8c for sliced; machine-dried, 11@12½c; Plums, 8@9c for pitted and 2@4c for unpitted; German Prunes, 7@8c; French Prunes, 9@10c ⅌ ℔; Raisins, London Layers, $1 50@2 ⅌ box, with 20@25c advance for fractions; Common, $1 10@1 35 ⅌ box.

BUTTER—The market, generally has shaped favorably for buyers during the past week. It was only for parcels of extra choice quality that sellers could dictate terms. Warm weather caused more or less Butter to arrive in partially melted-down condition, and such stock had to be sacrificed to find custom, being suitable only for putting into kegs, to be sold as second or third grade. Product suitable for pastry purposes is in liberal supply. Fancy, 21½@22½c; good to choice, 19@21c; fair, 16@18c; mixed lots, 12@15c; firkin, 20c for fancy, 16@18c for fair to good, and 11@13c ⅌ ℔ for poor; pickled roll, 22½c ⅌ ℔. Eastern, 13@15c ⅌ ℔ for ordinary to fairly good quality.

CHEESE—Demand light, being confined to local requirements. Sales are made at top prices only in a jobbing way. Quotable at 10½@11c ⅌ ℔ for choice, cased, and 9@10c for fair to good quality.

EGGS—There is no improvement in the situation for sellers. Extreme prices are obtained only by the box for lots direct from the henneries. Shipments of this character are generally light at this season of the year, and are therefore better handled by dealers. Quotable at 23@25c ⅌ dozen for ranch, and 20@22c for store consignments; inferior, 16@18c; Eastern, 16@18c ⅌ dozen.

POULTRY—The market is but moderately supplied, though choice stock comes to hand to meet the trade wants. A decline in Hens is the only change of note since last Friday. We quote as follows. Live Turkeys—Gobblers, 18@20c; Hens, 16@17c; Roosters, $6@6 50 for old, and $9@12 for young; Hens, $6@6 50 for ordinary stock, and $@78 for choice; Broilers $3@6 50; Ducks $4@6; Geese, $1@1 50 ⅌ pair; Pigeons, $2 ⅌ dozen for old and $2@2 25 for young.

WOOL—The past week has been a very dull one for the Wool trade, and the present is not likely to be any better. Now that the holidays are over, however, dealers incline to the belief that more activity will soon prevail and that there will be good demand for all offerings of choice character. We quote:

**A Toilet Luxury**

In every respect, Ayer's Hair Vigor never fails to restore the youthful freshness and color to faded and gray hair. It also prevents the hair from falling, eradicates dandruff, and stimulates weak hair to a vigorous growth.

Five years ago, my hair, which was quite gray, commenced falling, and, in spite of cutting, and various preparations faithfully applied, became thinner every day. I was finally persuaded to try Ayer's Hair Vigor. Two bottles of this remedy not only stopped the hair from falling, but also restored its original color, and stimulated a new growth. — Eli F. Doane, Machias, Me.

**S. S. S. CURES Cancer, Scrofula, Eczema, Blood Poison, Malaria, Ulcers, And all Diseases Caused from Impure Blood**

Cancer of the Tongue.

My wife, some three or four years ago, was troubled with an ulcer on the side of her tongue near the throat. The pain was incessant, causing loss of sleep and producing great nervous prostration. Accompanying this trouble was rheumatism. It had passed from the shoulders and centered in the wrist of one hand, she almost losing the use of it. Between the suffering of the two life had grown burdensome. By the use of a half dozen small-sized bottles of Swift's Specific she was entirely relieved and restored to health. This was three years ago, and there has been no return of the disease.

It is indeed a wonderful remedy—toning the nerves, strengthening the muscles, checking the waste, invigorating the whole system, and restoring the afflicted to HEALTH and HAPPINESS.

The Doctor will agree to forfeit $1,000 for a case undertaken not cured. The reason so many cannot get cured of Weakness and the above diseases is owing to complication called PROSTATORRHEA with Hyperesthesia, which requires special treatment.
